

St. Mary Magdalen School
8615-7th Avenue S.E.
Everett, WA 98204

April 27, 1989

To Whom It May Concern:

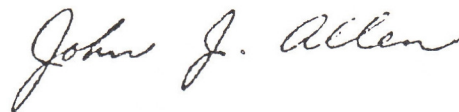

Mr. McBride has directed a drug awareness program at St. Mary Magdalen School for the past three weeks. He has worked with all our students in grades 1 - 8, with our school faculty, and one session with school parents.

He has been well received by all three target groups. His focus has been on providing critical information, keeping open lines of communication between the children and key adults, and giving specific suggestions to those affected by drugs to deal with their situations.

Because he does not moralize, the students have been willing to listen to his presentations.

We brought Mr. McBride to our school on the recommendations of principals in other Catholic schools. I feel quite comfortable recommending the program to other schools interested in providing a similar experience to their students, teachers and parents.

John Allen, Principal
